Topics

1. **Seminar** - 3 days.
2. **Participation** - White belts children to black belts adults.
3. **Facilities** - 2 big, and convenient gyms. There was enough space for spectators, especially parents.
4. **Level of Karate** - As in any country, some students showed high international standard.
5. **Dan Exam** - One student took an exam and passed to 4th Dan.
6. **Organization** - The seminar was very well organized. The trainings & the events were according to the origin schedule.
7. **Environment** - Very good energy. The students and their families made their best to give Sensei Jones and myself a good feeling.
8. **Volunteer Services** - The family members of the karate students are like a community and very supportive of the organization. The gym had a regularly operated buffet and also served the instructors.
9. **Hotel** - Small, clean and very close to the venue.
10. **Free Time & Food** - Our hosts, especially Sabina Bock gave us a great tour & companion.
11. **Conclusions** - It is my privilege to congratulate Sensei Michael Bock, his family and his stuff, for their efforts to succeed with the difficult task of organizing the first international seminar after (or with) the covid-19.

Sensei David Jones & I appreciate the warm welcoming and the collaboration of ISKF Germany.
